

# CentraleSupélec

## **Hervé BIAUSSER** **President of CentraleSupélec**

Born in 1951, married, Hervé BIAUSSER holds a Bachelor's degree in Economics and is an engineer graduate of Ecole Centrale Paris, College of Engineering (1973).

After his studies at Ecole Centrale Paris, Hervé Biauxser joined the Research Institute of the French Steel Industry in 1977, where he developed research activities on steel processing and steel products, held several managerial positions and took the responsibility of the Mechanical Metallurgy Department, in 1990, after having worked on his Thesis.

In 1995, Hervé Biauxser joined Ecole Centrale Paris, where he was already Adjunct Professor, as a full-time Professor. He took the responsibility of the Material Science Department in 1997 and of the Material Processing Laboratory in 1998. In 2001, he was appointed Dean of Research and Doctoral Studies.

In 2003, Hervé Biauxser was appointed President of Ecole Centrale Paris. He was also the President of Supélec (Ecole Supérieur d'électricité), from September 2013 to December 2014. On January 1st, 2015, he was appointed President of CentraleSupélec (result of the merger of Ecole Centrale Paris and Supélec) by the President of the French Republic.

From 2007 until 2009, Hervé Biauxser was the President of CESAER (Conference of European Schools for Advanced Engineering Education and Research) and the President of the TIME European network from 2012 to 2014.

Hervé Biauxser is the current Vice-President of CGE (Conférence des Grandes Ecoles Françaises) and the President of the Ecoles Centrales network (Paris, Lyon, Lille, Nantes and Marseille).

Since 2005, Hervé Biauxser is the Vice-President of the Board of Ecole Centrale Beijing (China). Since 2014, he is also the Vice-President of the Board of Mahindra Ecole Centrale, Hyderabad (India) and of Ecole Centrale Casablanca (Morocco).

Hervé Biauxser is "Chevalier de la Légion d'Honneur" and "Officier de l'Ordre National du Mérite", two of the highest recognitions of the French Republic. He also received the Grande Médaille of the French Society of Metallurgy and Materials.
