

LAUNCHING OF EM-EASED PROGRAM

(Châtenay-Malabry, October 10th, 2013) – The EM-EASED (Euro-Asian Sustainable Energy Development) 2013-2017 kick-off meeting will be held on Centrale Paris campus on October 10th and 11th, 2013 as the Ecole Centrale Paris is coordinating this new European program with Japan and Korea.

During this meeting, the 12 partners of the program (6 European, 4 Japanese and 2 Korean universities) will handle different aspects of the program objectives, organization, promotion and management. The four associates of the program will also contribute to the discussions.

As an outcome of the meeting, a Memorandum of Understanding will be prepared in order to provide a framework for the expected mobility scheme for PhD, post-doctorates and staff, in the field of energy. This MOU will also allow the exchanges between the involved research teams in order to reinforce best practices and pedagogical activities, knowledge sharing and academic recognition.

EM-EASED is a follow-up of the previous EM-BEAM program (2010-2014) whose partners will meet on October 10th in thematic workshops to define the future joint actions.
